

# Ayo Eboweme

Junior Front-End Developer

## WORK EXPERIENCE

### Skaet-Aisles, Remote

React Developer Intern

04/2024

- Implemented new features and functionalities as directed by management and designed by UI/UX teams.
- Collaborated closely with cross-functional teams including backend developer and product manager, to deliver seamless integrations.
- Participated in regular meetings and code reviews to ensure alignment with project goals and coding standards.
- Created and maintained documentation for new features and bug fixes, facilitating easier future development and troubleshooting.

### Liquidmoni, Remote

Frontend Developer Intern

07/2023 - 12/2023

- Developed and implemented user-friendly features on the company's website while collaborating closely with the product designer to ensure a visually appealing platform.
- Implemented a financial dashboard that provided real-time data analysis, leading to a 30% increase in overall business efficiency.
- Implemented features enabling users to track individual transactions, view user activities, and access application rate data for different corridor pairings, improving data-driven decision-making within the organization.

### Tek-Experts, Lagos, Nigeria

Technical Support Engineer

07/2019 - 01/2022

- Managed Exchange infrastructure for Microsoft Professional customers in the UK, US, Asia and Africa regions, ensuring optimal performance and uptime for over 5000 users.
- Streamlined troubleshooting processes for Exchange Online, Microsoft 365 Outlook Web Access, and Outlook E-mail issues, resulting in a 30% decrease in average resolution time for over 500 users.
- Resolved complex technical issues for clients via phone and email, resulting in a 95% customer satisfaction rate and reducing average resolution time by 30%.
- Utilized active listening skills to understand customer concerns and effectively address technical issues, leading to a 20% decrease in average call resolution time.

### Jumia, Lagos, Nigeria

IT Support Intern

07/2018 - 12/2018

- Maintained network uptime by resolving 95% of user inquiries within a 24-hour timeframe, exceeding industry standards and ensuring minimal disruption to operations.
- Performed regular maintenance tasks on servers, including software updates and security patches, leading to a 30% reduction in system vulnerabilities.
- Researched and identified user needs for system application
